## **Biography on Amy Schwartz, MPH**

Amy Schwartz joined the University of New Hampshire in December of 2001. She has been the project director for the New England Genetics Collaborative at the UNH Institute on Disability since June 2007. Previously, she held several management positions for health insurance companies in provider relations, contract negotiation and cost containment. She completed her graduate degree in public health at the University of Hawaii at Manoa, with a concentration in maternal and child health and a minor in disability studies. Ms. Schwartz teaches a course in public health at the UNH graduate school and is completing her certificate in public health genetics and genomics at Sarah Lawrence College. Her specific expertise and experience is in health insurance, business management, health care finance, contract negotiation and government programs.
